

PhD Program Structure

PhD in Management is a full time research degree program stretched over a minimum of three years period.

Course work (10 Credits)

- a. Special Topics in Quantitative Research Methods [3]
- b. Special Topics in Qualitative Research Methods [3]
- c. Advanced Research Seminar in Concentration Area [4]

Research Thesis (50 credits) in the area of Concentration

Concentration Areas

- a. General Management
- b. Finance
- c. Marketing

Research Thesis (50 credits)

After successful completion of all the requirements including the course works, a PhD candidate is required to work on his/her thesis proposal. Upon successful defense of the thesis proposal and formal approval by the Research Committee, the candidate will be permitted to carry out the research. At a later stage, on recommendation of the Advisory Committee, the candidate shall present his/her research in public. In the final stage, the candidate is required to complete the thesis work by defending it successfully through a viva-voce before the Research Committee and a designated committee of experts.

Prerequisites Course Works

An admitted candidate having a Master degree other than research degree (MPhil or MS by Research) in Management is required to undertake additional courses as prerequisites from the School's MBA/ EMBA and MPhil programs. This is done to prepare candidates adequately for a smooth induction into PhD courses and to strengthen their research capability in intended research area. The number and type of prerequisites courses for such candidate shall not be less than 12 credit hours and will be as determined by the Research Committee.
